IT INFRASTRUCTURE + IT SECURITY + IT APPLICATION + SOLUTION + SERVICE

# ABOUT US

PT Artha Nusa Integrator is a business entity that operates in service sectors, namely Information Technology Services, Communications, Telecommunication Networks for the needs of the Telecommunications / Digital Industry, Manufacturing, Government, Plantation, Exploration, Mining, Oil and Gas, in Indonesia.

In an effort to provide the best service, Artha Nusa Integrator implements a customer-oriented company business and operational strategy. This orientation will make it agile in adapting to rapid changes in telecommunications and industry. This organization is also expected to increase efficiency and effectiveness in creating a quality customer experience.

Artha Nusa Integrator's business activities always follow developments in technology, information and industry, but are still within the information and industrial telecommunications corridor. This can be seen from the business lines that continue to develop, complementing the existing legacy.
